Safety drains for flat roofs and terraces series „Safe“

Product description

With these new roof drains of series „safe“ high quantities of rain water may be drained off from the roof, especially when 100 year rain events happen.

In contrast to conventional solutions you have many advantages, as follows:

- High capacity with less drains
- Less roof openings
- Water edge adjustable in height from 28 -68 mm
- Many possibilities of connecting to the waterproofing

DRAIN CAPACITY:
